*designers' choice* SINCE 1895

*innovations* AUTUMN/WINTER 2011/12

## CRYSTALLIZED™ *becomes* SWAROVSKI ELEMENTS

SWAROVSKI ELEMENTS – THE PREMIUM BRAND FOR FINE LOOSE CUT CRYSTALS

### DEAR BUSINESS PARTNER,

Since 1895, Swarovski has based its reputation on the power of precision-cut crystal, creativity and innovation. To complete the vision of crystal perfection, the founder Daniel Swarovski established a demanding principle that still defines Swarovski today: "constantly improve on what is good."

True to the founder's spirit, the company is eager to further develop its brand communication for your benefit. Thus, the name of the crystal components brand will be optimised, granting a stronger emphasis on the Swarovski brand.

**From June 2010, CRYSTALLIZED™  
– Swarovski Elements becomes  
SWAROVSKI ELEMENTS.**

### WHAT YOU GAIN

As our business partner, you profit from the bundled energy of one and thus all the more effective premium brand:

#### The premium brand in Crystal and Lifestyle: Swarovski

With SWAROVSKI ELEMENTS you benefit from the power of the umbrella brand Swarovski® – a trademark with unmatched international reputation. You profit from the strong global presence generated by all Swarovski initiatives, events, retail activities and concept stores in all important cities. This strong link to the Swarovski brand allows you to reach your customers more frequently and approach countless potential customers who are familiar with the brand through other areas.

#### STRASS® Swarovski® Crystal under the same strong umbrella

Within the brand optimisation, Swarovski's components brand for lighting, design and manufacturing – STRASS® Swarovski® Crystal – will be brought under the same single strong umbrella. Just as CRYSTALLIZED™, STRASS® will be merged into SWAROVSKI ELEMENTS from June 2010. The product advantages remain unchanged: absolute purity, maximum-precision cut, individual quality control and unmatched brilliance.

### Greater creative potential

The position of SWAROVSKI ELEMENTS as THE premium brand for fine loose cut crystals gives you access to synergies across many different segments, boosting your efficiency through brand communication that spans the entire value chain. You endorse your products with the brand and finest choice of crystal ingredients. As a partner of SWAROVSKI ELEMENTS you have immediate access to a wide range of products. This abundance of colours, effects, cuts, sizes and application types opens the door to new creative possibilities.

### WHAT STAYS THE SAME

Under SWAROVSKI ELEMENTS you will enjoy all the benefits that you have come to appreciate through your prior partnership. In addition to the unchanged premium product quality, we maintain our high level of service for:

#### Optimum communication support

As a business partner of SWAROVSKI ELEMENTS, we will continue to supply you with a comprehensive communication package that is perfectly tailored to your needs and give you access to training.

#### Well-proven visual identity

The visual identity of SWAROVSKI ELEMENTS follows the well established standards of CRYSTALLIZED™ – Swarovski Elements – with regard to the shape of the brand tag, colour coding and typefaces. The appearance of brand and communication support tools remains unchanged. All that will change is the emphasis on the Swarovski brand.

#### Segment-specific and trend-oriented product innovation

We will continue to regularly introduce trend-oriented product innovations specially tailored to your area of business. To this end, Swarovski's trend experts collaborate closely with internal and external specialists and market researchers. We will naturally also continue to keep you thoroughly informed about upcoming trends.

#### MUTUAL SUCCESS

As with every important step forward, we can only make a successful transition to SWAROVSKI ELEMENTS as a team. We look forward to taking this step together with you and thank you in advance for your cooperation and trust!

We will gladly provide additional information and answer any questions you may have – just contact your Swarovski representative.

#### SWAROVSKI ELEMENTS – A PORTRAIT

SWAROVSKI ELEMENTS is the premium brand for fine loose cut crystals in fashion, accessories, jewellery, interior design, and the lighting business. The brand stands out by virtue of its creative and strong emotional appearance – it has long been an elemental part of modern luxury.

SWAROVSKI ELEMENTS is present around the world – through multifaceted communication initiatives, events, PR activities and collaborations. It is used by leading designers and creative people in many different areas.

SWAROVSKI ELEMENTS has been the ingredient of choice by leading designers since 1895.

The «MADE WITH SWAROVSKI ELEMENTS» label serves as a guarantee of quality, authenticity and integrity on design pieces.

More information about the world of SWAROVSKI ELEMENTS is available at [WWW.SWAROVSKI-ELEMENTS.COM/BUSINESS](http://WWW.SWAROVSKI-ELEMENTS.COM/BUSINESS).

## INFORMATION ON CERTIFICATES AND COMPLIANCE OF SWAROVSKI ELEMENTS

# MORE THAN 100 YEARS OF *innovation* AND *experience*

Swarovski has been dedicated to perfection in all aspects of crystal creativity since 1895. Today, Swarovski is an inspiration to the entire design world in terms of precision-cut crystal.

## RESPECT AND *responsibility*

Swarovski products all reflect the company's corporate values of respect, integrity and social and environmental responsibility. SWAROVSKI ELEMENTS are synonymous with the spirit of innovation – not only from a design perspective but also with regard to certificates and compliance to laws governing health and safety.

### OEKO-TEX CERTIFICATE

SWAROVSKI ELEMENTS are certified according to Class II of the Oeko-Tex-Standard 100, an international quality label for harmless textiles. The Class II standard for the textile industry regulates textiles that are in contact with the human skin. The standard regulates thresholds for specific health damaging substances (if concentration is too high), a standard even more strict than present laws.

### EN71/3 AND ASTM F963-03 CERTIFICATE

SWAROVSKI ELEMENTS fulfill the EN71/3 and ASTM F963-03 norms with reference to the allowable lead solubility for children's toys.

### PLATINUM FOILING AND M-FOILING FREE OF HAZARDOUS SUBSTANCES

The foilings used for SWAROVSKI ELEMENTS are compliant according to 16 CFR 1303 and do not exceed the lead limit for surface coatings.

### ROHS COMPLIANCE

The RoHS Directive which is in effect since July 1, 2006 regulates the use of certain hazardous substances (e.g. lead, cadmium, mercury, ...) in connection with electrical and electronic equipment. Based on the exemption granted to the glass industry for bound lead in crystal glass, the majority of our crystal assortment\* may be continued to be used in the area of electric and electronic devices.

### REACH

The Registration, Evaluation and Authorization of Chemicals is a new EU regulation that came into force on June 1, 2007. Under this regulation, manufacturers or importers of chemicals must pass on information about chemicals that are contained in the products they provide. This information needs to be provided both to customers and to the European Chemicals Agency. Swarovski fulfills all the requirements of the REACH regulation. For further information regarding compliance and/or application recommendations please refer to our business website [WWW.SWAROVSKI-ELEMENTS.COM/BUSINESS](http://WWW.SWAROVSKI-ELEMENTS.COM/BUSINESS) or to our Application Manual.

\*At time of printing non RoHS-compliant colours are:  
Citrine, Dark Red Coral, Fireopal, Garnet, Hyacinth,  
Light Siam, Palace Green Opal, Siam and Sun

**Martín Churba**

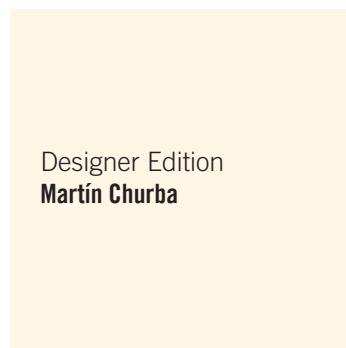

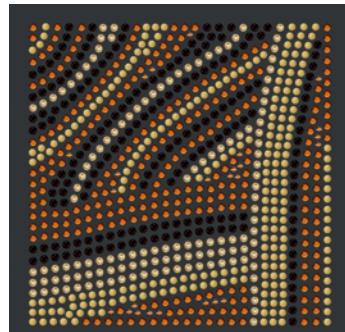

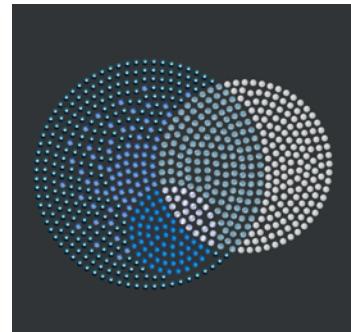

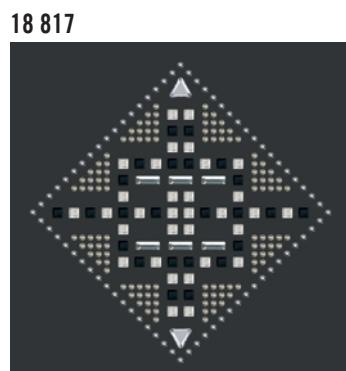

&lt;&lt;&lt;

One of Argentina's renowned creative forces, Martín Churba designed fabric print collections for big name fashion labels in Italy and the US before setting up his own textile and fashion atelier. Textile design still informs and inspires his collections, while SWAROVSKI ELEMENTS bring an additional touch of richness to his work.

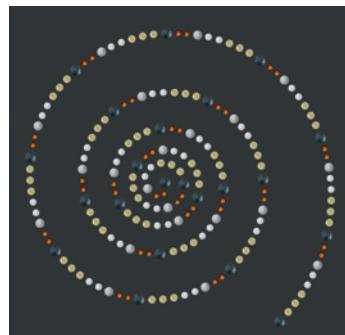

**The Coorperation**

&lt;&lt;&lt;

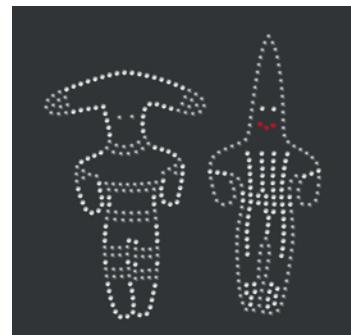

Martín Churba calls working with SWAROVSKI ELEMENTS "a game of pleasure and possibilities." He says having crystal as an element of richness is "incredible," adding that he is "thrilled to be the first Argentinean designer to do it, working hand in hand with Swarovski headquarters, its designers and the family heir." Churba says his Transfers "point to the south" to make reference to his place of origin. The images he uses – like the gaucho patterns, the Indian weave, and his own contemporary designs – are like cultural "road signs."

The Crystal Mesh assortment is now being extended to include "Ceramics" of the Fusion Concepts range. The Crystal Mesh Standard and Crystal Mesh Metallisée are also available with innovative Ceramics colours. These offer a wide range of new design possibilities especially for the textile, accessories and interior segments. Customised motives are possible via the Special Motif Service.

The application methods and care instructions are the same as those that apply to the Crystal Mesh assortment. Please refer to the Application Manual and our Business Website [WWW.SWAROVSKI-ELEMENTS.COM/BUSINESS](http://WWW.SWAROVSKI-ELEMENTS.COM/BUSINESS) for detailed information on the application.

## Advice on Application

<<<

2520 Cosmic Flat Back Hotfix can be applied by using a standard heat press. The following parameters should give you an overview about the possibilities of applying this product onto different fabrics. In order to ensure the right conditions and to establish the best choice of application aids, we strongly recommend carrying out tests with the original fabrics.

	Temperature and approx. time (in seconds)					
	120°C 250°F	130°C 265°F	140°C 285°F	150°C 300°F	160°C 320°F	170°C 340°F
Wool-Trevira	35	35	30	25	18	12
Cotton	35	35	30	25	18	12
Linen	40	38	35	28	20	15
Wool	40	38	35	25	20	15
Viscose	30	28	25	20	15	10
Tulle	28	25	22	18	12	10
Denim	40	40	32	28	22	16
Lycra	35	35	30	25	18	12
Cotton Jersey	35	35	30	25	18	12
Synthetic Suede	40	40	32	28	22	15
Silk	30	28	25	20	15	10
Synthetics	28	25	22	18	12	10
Technical Fabrics	30	28	25	20	15	10
Fake fur	50	40	32	28	22	16

Pressure: medium

Application side:  The reverse side of the fabric is facing the heated surface of the ironing press.

Ironing aid: Teflon®, ironing cloth, silicone foam or silicone pad

Please refer to Application Manual and our Business Website [WWW.SWAROVSKI-ELEMENTS.COM/BUSINESS](http://WWW.SWAROVSKI-ELEMENTS.COM/BUSINESS) for detailed information on the application.

### 3128 XILION Lochrose

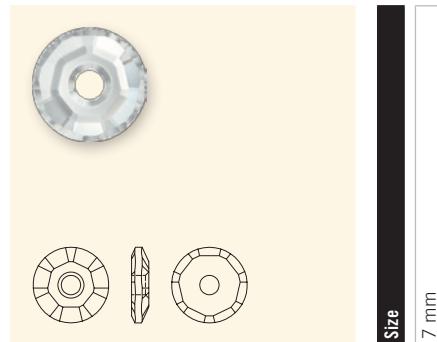

## 3129 P288 Article Explanation

<<<

Swarovski is pleased to announce that fully automated application of SWAROVSKI ELEMENTS art. 3129 P288 Lochrose is now possible for industrial embroidery thanks to cooperation with the Swiss company Lässer AG, the world's leading developer and manufacturer of high performance shuttle embroidery machines. This new and innovative application technique offers a multiple range of application possibilities on a broad variety of textiles for the interior and fashion industry.

# Sew-on Stones

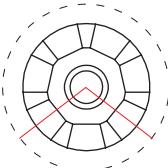

## Guideline for industrial embroidery

<<<

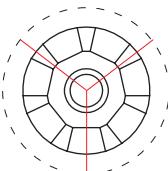

The outer border of the Lochrose is indicated by the continuous line ( $\varnothing$  6.7 mm). The lines represented by dashes illustrate the stitch length of 4.5 mm that is required to fix the crystal. The minimum distance between each crystal is 2 mm.

To fix the crystal, the first stitch has to be done bottom-up, through the carrier material and directly into the middle of the Lochrose.

The Lochrose will generally be secured by stitches in three different directions. Depending on the quality (tear strength) of the yarn used, this will be done either once (two stitches in each direction) or twice (four stitches in each direction).

If possible, please use polyester or nylon yarn to embroider the SWAROVSKI ELEMENTS art. 3129 Lochrose.

Please refer to the Application Manual and our Business Website [WWW.SWAROVSKI-ELEMENTS.COM/BUSINESS](http://WWW.SWAROVSKI-ELEMENTS.COM/BUSINESS) for detailed information on the application.

## Care Instructions

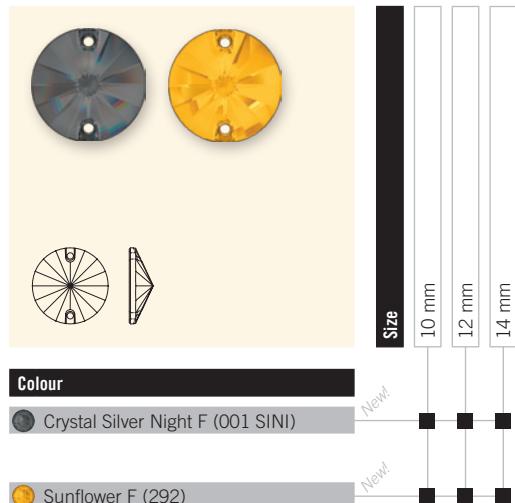

<<<

### Embroideries with art. 3129 P288 Lochrose

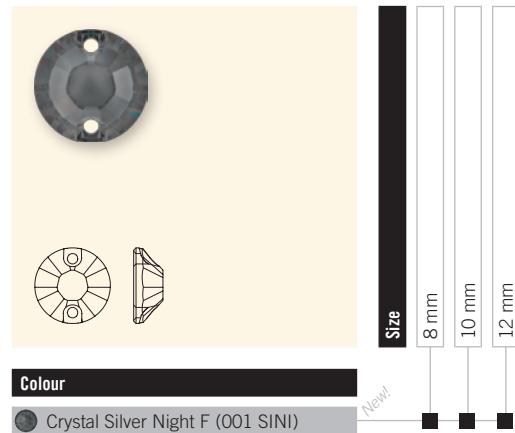

<b>General Recommendations</b>	Turn inside out, choose a gentle washing programme and use a mild laundry detergent.	Do not use chlorine bleach!	Turn inside out and dry the textile with reduced temperature.	Turn inside out and iron using an iron setting for wool.	The textile can be gently dry-cleaned using perchlorethylene. Turn inside.
	Use of a soft wash bag to best protect the crystals.		Use a soft wash bag to best protect the crystals.	Do not iron directly over the crystals.	Use of a soft wash bag to best protect the crystals.

## The new XILION upgrade

&lt;&lt;&lt;

The revolutionary XILION technology, characterised by alternating small and large facets, boosts the power of light reflection and intensifies the luminosity of the refracted light.

The copyright protected XILION technology has been successfully applied to various product groups in the SWAROVSKI ELEMENTS assortment.

As part of this Autumn/Winter 2011/12 Launch, Swarovski introduces the XILION cut as applied to the Oval.

Art. 4100 -> art. 4128 XILION Oval (p. 27)

The results are clearly visible – these upgraded XILION articles are convincing proof of the unique XILION brilliance.

The latest methods of measuring light refraction have been deployed to develop the new XILION Oval – and also to prove their inimitable brilliance.

Bolder light reflection and intensified scintillation produce the optimal light distribution and result in the highly brilliant XILION look.

## Article Explanation

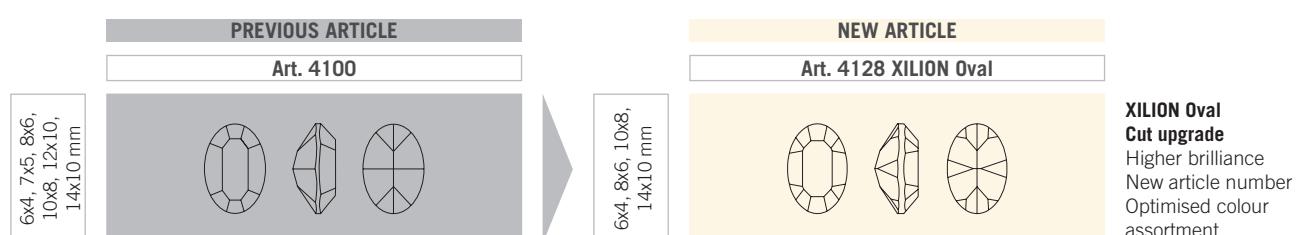

&lt;&lt;&lt;

### Unique XILION brilliance for Oval Fancy Stone

After having successfully applied the XILION cut to the XILION Navette, XILION Square and the XILION Pear, SWAROVSKI ELEMENTS continues to extend the XILION product family and has now achieved a brilliant XILION cut on its Oval Fancy Stone.

With this upgrade, the existing Oval Fancy Stone art. 4100 is completely replaced by the new art. 4128, XILION Oval.

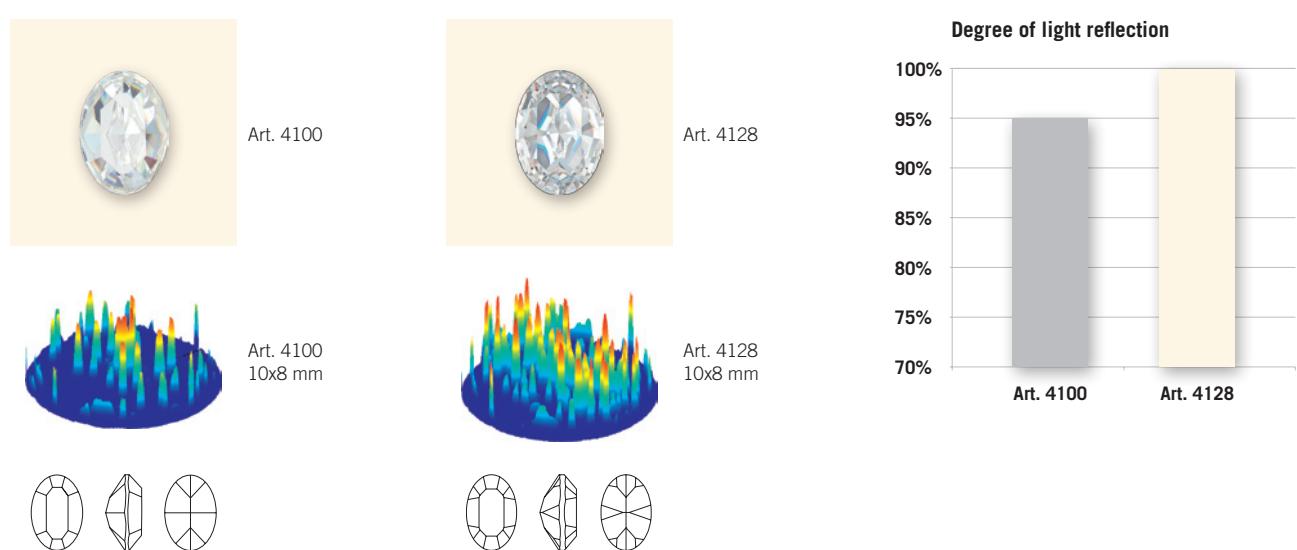

The new article XILION Oval is available in a reduced, but optimised size range when compared to the previous article 4100 and now comes in a harmonised, extended colour assortment.

## Brilliance that you can see and measure

&lt;&lt;&lt;

The captivating XILION Oval has a distinct luminosity that is generated by the increased reflection of individual points of light, a distinct improvement in the rate of brilliance of art. 4100.

## Product Characteristics

<<<

**The art. 4128 XILION Oval offers the following advantages:**

- The sophisticated XILION cut results in unique brilliance.
- Complex facetting imitates the look and luminosity of a multi-layered cut.
- Copyright protected XILION cut by Swarovski
- Same price level as art. 4100
- Reduced, but optimised size range (withdrawal of 7x5 mm and 12x10 mm)
- Comprehensive and extended colour assortment: 15 new variants

## Application

<<<

### Settings & Moulds

Existing standard settings and moulds can be used for the application of XILION Oval, since its dimensions and geometry are virtually identical to the previous articles. There will be no changes in the application of this improved article.

### Launch and Transition Period

Please note that we will deliver both versions (previous and new) during a transition period up until December 2010, according to their availability.

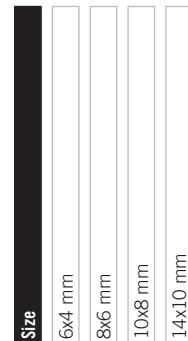

### Semi-finished Products

The new XILION Oval will be introduced in the art. 15504 Oval Single Stone Setting, art. 55500 Oval Channel, art. 60441 Filigree and art. 90010 Linked Finding.

The stone pattern of the article will be changed from art. 4100 to art. 4128 as of September 2010. The system numbers will remain the same. All orders placed from September 2010 onwards will be filled using art. 4128 XILION Oval.

# Pendants

## Crystal Prints on Pendants and Beads

<<<

Crystal Prints are an innovative new look available for the Pendants and Beads assortment. Three of our standard articles have been decorated with three different standard motives that create an attractive contrast between the clear, transparent crystal and the black and graphic prints. The innovative designs open up even more possibilities for individual creations that are able to capitalise on both the play of light and brilliance of the SWAROVSKI ELEMENTS and the graphic structural patterns printed on the surface of the crystals.

## Available Print Motives in Standard Assortment

<<<

01  
Zebra Print

02  
Paisley Print

03  
Ivy Print

## Assortment

## Special Production of Crystal Prints

&lt;&lt;&lt;

Customised prints can be ordered. Please contact Customer Service for details.

The three motives "Zebra Print", "Paisley Print" and "Ivy Print" are available printed on the various sizes of art. 5621, 6091, 6620 and 6621.

## Crystal Bermuda Blue and Crystal Tabac with protective layer „P“ on Pendants and Beads

&lt;&lt;&lt;

Protective Layer is a new lacquer system that is applied over the effects Crystal Bermuda Blue or Crystal Tabac. This lacquer is designed to protect the effects from scratches, fingerprints and other damage and also helps to prevent moisture that can lead to corrosion (e.g. from perspiration) penetrating into the effect layer when jewellery is designed to incorporate Crystal Stones that are not set in casings/settings.

## Advice on Application

&lt;&lt;&lt;

Rose Pins can be applied easily either by a fly press or an electro-pneumatic machine.

It is very important to carefully check the thickness, flexibility and structure of the fabric or leather before starting the application process.

The material should not contract or crinkle after the application. Therefore tests are highly recommended before starting the final application process.

In order to prevent possible injury, the wearing of protective eyewear is recommended when mechanically applying crystal products.

### Conditions for the Application of Rose Pins

Rose Pin Article	Size	Material thickness*
53 301	SS 10	1 – 2 mm
53 302	SS 16	
53 303	SS 20	
53 304	SS 34	

\*could vary due to character and production of carrier materials.

### Fly press

It is important to make sure that the tool is sitting straight and firmly in the fly press. Stop position: the offset can be regulated using an adjustable stop that is fastened to the handle.

### Tools for fly press

	Art. 53 301 SS 10	Art. 53 302 SS 16	Art. 53 303 SS 20	Art. 53 304 SS 34

### Electro-pneumatic machine

Specially developed tools (magazine, conductor bar, upper and lower die) allow a semi-automatic application with an electro-pneumatic machine. The mechanism can be activated using a foot pedal.

Principle of semi-automatic application with an electro-pneumatic machine

Please refer to the Application Manual and our Business Website [WWW.SWAROVSKI-ELEMENTS.COM/BUSINESS](http://WWW.SWAROVSKI-ELEMENTS.COM/BUSINESS) for detailed information on the application.

### Care Instructions

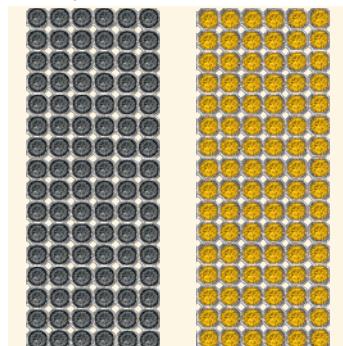

<<<

<b>General Recommendations</b>	Turn inside out, choose a gentle washing programme and use a mild laundry detergent.	Do not use chlorine bleach!	Do not tumble dry!	Do not iron!	The textile can be gently dry-cleaned using perchlor-ethylene. Turn inside.	The textile can be gently dry-cleaned using hydrocarbon. Turn inside out.	The textile will withstand gentle professional wet-cleaning. Turn inside out.
	Use of a soft wash bag to best protect the crystals.		Use of a soft wash bag to best protect the crystals.	Do not iron directly over the crystals.	Use of a soft wash bag to best protect the crystals.	Use of a soft wash bag to best protect the crystals.	Use of a soft wash bag to best protect the crystals.

## GENERAL WARNING

Loose crystals may present a small parts hazard to young children, particularly children under three years old. Depending on the size of the crystal and any attached material (such as glue, fabric, etc.), children may choke on, inhale, swallow or insert the crystal into nose. With crystal applied magnetic products pose a particular risk of serious intestinal injuries if ingested.

The application techniques in this manual do not guarantee that crystals will not come loose. For each application, the manufacturer must determine whether the product meets relevant requirements related to small parts hazards and assess any risk it may pose to small children. Failure to follow Swarovski's care instructions may result in damage to the crystal, which could pose a risk of laceration or other harm.

## WARNING FOR CRYSTAL TATTOOS

Crystal Tattoos may be applied on health skin only. Do not adhere to eyes or on mucous membranes. Crystal Tattoos are not recommended for young children. Loose crystals may present a small parts hazard to young children, particularly children under three years old. If a crystal comes loose, depending on the size of the crystal, children may choke on, inhale, swallow or insert the crystal into nose.

## WARNING FOR MAGNETIC PRODUCTS

Loose crystals may present a small parts hazard to young children, particularly children under three years old. With crystal applied magnetic products pose a particular risk of serious intestinal injuries if ingested. For each application of magnetic crystal products, the manufacturer must determine whether the product meets relevant requirements related to small parts hazards and assess any risk it may pose to small children.

## WARNING

Application of loose crystals to tableware presents a risk of aspiration, choking, swallowing, or tooth damage. To reduce this risk, crystals should never be applied to any surface of tableware likely to come in contact with food and crystals should never be placed on any tableware intended for use by children. To avoid dishwasher damage, tableware decorated with crystals should be washed by hand.

The application techniques in this manual/suggestion do not guarantee that crystals will not come loose. For each application, the manufacturer must determine whether the product meets relevant requirements related to small parts hazards and assess any risk it may pose to small children.

The use of crystals (which may contain substances known as hazardous) and adhesives on tableware is subject to legal restrictions in specific countries. The customer is fully responsible to comply with these country-specific provisions and shall defend, indemnify and hold Swarovski harmless from any and all third-party claims based on product liability or otherwise relating to uses of Swarovski products and waives all its own claims against Swarovski.

## NOTICE FOR APPLICATION ON PACKAGING

The use of crystal that may contain substances like lead, cadmium or hexavalent chromium, on packaging is subject to legal restrictions in specific countries, including but not limited in regard to the total content of substances based on the proportion between crystal mass to the remaining weight of packaging. The customer is fully responsible to comply with these country-specific provisions and to pass on this information to his customers.

## CARE INSTRUCTIONS

Failure to follow Swarovski's care instruction may result in damage to the Swarovski product, which could pose a risk of laceration or other harm. Please be informed that all conventional laundering processes (household washing machine as well as professional dry-cleaning) have a considerable mechanical influence onto the garment, which is based on the rotation of the washing drum. The essential requirement for a safety laundering process is that the Swarovski products are properly applied without restrictions regarding the adherence of the Swarovski products. The bigger the size of the used Swarovski product is and the more Swarovski products are applied next to each other, the more a risk of damage has to be taken into consideration. Swarovski products are made of or incorporate crystal and therefore must be handled with due care!

Generally, to best protect the Swarovski products from breaking we recommend the use of a soft washing bag and to fill up the washing drum. Turning inside out before washing and selection of a gentle washing program, plus the use of mild detergents are important prerequisites to safeguard the quality of our Swarovski products. Our care instructions based on DIN EN ISO 3758 list up all Swarovski product groups as overview so that each used Swarovski product still needs to be judged in terms of its cleaning suitability for the intended purpose and finished product by the customer. Swarovski's recommendations are given according to the current state of our knowledge and Swarovski's determination of the qualification as textile application product. The customer is therefore fully responsible to determine the cleaning process applicable to the finished product, taking the Swarovski care instructions as well as those of third party materials into account. The variety of shape, cut, surface effect, size and application weight respectively amount of used Swarovski products are decisive for the determination of the suitable cleaning process.

To be entirely safe customers respectively dry-cleaners usually take off Sew-on Stones, Buttons, etc. of bigger size before cleaning and re-apply them afterwards.

## RESPONSIBILITY OF USER

Any oral, written or test-based advice that Swarovski provides regarding techniques for application of its products are recommendations based on Swarovski's current knowledge and the information provided by its suppliers. Such advice does not discharge customer from carrying out its own tests of techniques it proposes to use and their suitability for the intended application. The application, use and processing of these techniques and products are solely user's responsibility.
